

# **NORTH HAMPSHIRE INTERNATIONAL TRADE CENTRE**

## **FACT SHEET: International Trade Forum**

The North Hampshire Trade Centre at the NHCCI works closely with the International Trade Forum.

The ITF provides a forum where exporters and importers can meet to exchange information, experiences and ideas in a networking environment and where they can obtain guidance and support to hopefully effect an increase in the volume and efficiency of their international trade.

The ITF has established a group of business people - exporters, importers and support organisations – who meet 4-5 times each year at interesting local venues. The meetings usually have one or more high profile speakers who introduce themes on either an exporting region or a strategic or technical aspect of export/importing. This is followed by a discussion and question & answer session on the subject presented or on some other question or comment raised by those attending.

The International Trade Forum is supported by UK Trade & Investment, Chambers of Commerce, the Institute of Export and a considerable number of commercial sponsors.

The ITF is non-profit making and serves north Hampshire as well as north and west Surrey and south and east Berkshire.
